

To the Parliament of Canada - Do not ratify the dangerous Trans-Pacific Partnership trade deal

WE THE UNDERSIGNED residents of Canada draw to the attention of the House the following:

THAT the Trans-Pacific Partnership trade agreement will sell out the right of the peoples of Canada to determine our economic, social and environmental policies, and instead protect the interests of domestic and transnational corporations to extract the maximum profits from the labour and resources of the participating countries.

THEREFORE, your petitioners call upon Parliament to completely reject the Trans-Pacific Partnership.
